

FreezGard®

MAG CHLORIDE LIQUID DE-ICER™

FREEZGARD® CI PLUS

- Produced naturally from the Great Salt Lake formulated for deicing and anti-icing.
- It remains active (liquid) at sub-zero temperatures.
- Reduces effects of corrosion on equipment and rebar by over 85% from regular sodium chloride.
- Decreases damage to surfaces on aerated concrete - which is used to build highways.
- Meets the specifications of the Pacific Northwest

Physical Properties:

Weight 10.5-11.2 lbs./gallon
Approx. 185 gallons/ton
275 Gallons

Application:

For anti-icing: spray at a rate of 1 gallon/3000 sq. ft.
For deicing: spray at a rate of 1 gallon/550 sq. ft.
Use full strength. Do not dilute.

ULTRA VIOLET.
SNOW & ICE MELT
